

Cataracts—Oftentimes caused by
inflammation, cataracts
and lead mucus in the eye
may be cured by the use of
this medicine.

Dyspepsia—Quickly relieves
indigestion, heartburn,
flatulence, and all forms of
stomach trouble. Sold in
bottles of 25 cents and 50 cents.

CLEVELAND IS AGAIN FIRST

Displaced Philadelphia In
American League

NEW YORK LOSES ALSO

In the National League Chicago and
Pittsburg Draw Away from the
Giants, Who Lost Easily
to Pittsburg.

By winning yesterday from Philadel-
phia the Cleveland team stepped into
first place in the American league and
are now four points ahead of the At-
lantics in the race. The Highlanders of
New York continued their slump, fall-
ing down before Detroit by the score
of 3 to 1. New York is now a bad
third, with Detroit close behind. Col-
lins' men, although they outbatted Chi-
cago two to one, lost the game two to
one in the reverse.

In the National League Chicago and
Pittsburg took a step away from New
York, each winning its game with ease.
Chicago from Boston, 11 to 1, and Pitts-
burg from New York by the score of
15 to 2. Last year's champions of the
league are in third place and 32 points
behind Chicago, the leader.

Yesterday's National League Scores.
At Boston—Chicago 11, Boston 1.
At New York—Pittsburg 15, New
York 2.
At Brooklyn—Jennings 3, Brooklyn
1.
At Philadelphia—Philadelphia 8, St.
Louis 3.

National League Standing.			
	Won.	Lost.	Pct.
Chicago	41	18	.695

Boston	15	40	.272

QUAKE IN PHILIPPINES.

Series of Shocks Felt in Luzon, But
Little Damage Done.

Manila, June 21.—A series of earth-
quakes occurred in northern Luzon
yesterday. The most per-
ceptible was felt in Manila at eight
o'clock Tuesday night. Several shocks
were experienced in the Balaue and
Batanes islands, and on Formosa. No
damage was reported.

The shocks began at 7:25 o'clock on
Tuesday evening and continued at in-
tervals through the night until 9:45
o'clock yesterday morning.
The Manila observatory reports that
the earthquakes probably were more se-
vere in the Balaue islands and For-
mosa.

WOULD LYNCH WOMAN.

Crowd Threatens Mrs. Kaufman, Accused
of Killing Her Maid.

Sioux Falls, S. D., June 21.—Mrs.
Emma Kaufman, wife of a wealthy
Sioux Falls brewer, was brought into
court yesterday for the conclusion of
her preliminary hearing on a charge of
having caused the death of her maid ser-
vant, Agnes Polaris.

She was hissed when she went into
the court room, and when she came out
an angry demonstration was made, and
cries of "lynch her," were heard.

Deadly Serpent Bites

are as common in India as are stomach
and liver disorders with us. For the
latter, however, there is a sure remedy—
Electric Bitters, the great restorative
medicine, of which S. A. Brown of
Brunswick, S. C., says: "They re-
stored my wife to perfect health after
years of suffering with dyspepsia and a
chronically torpid liver." Electric Bi-
tters cure chills and fever, malaria, bil-
iousness, lame back, kidney troubles and
bladder disorders. Sold on guarantee by
the Red Cross Pharmacy, Price 50c.

This Space is Controlled by Central
Labor Union of Barre and Vicinity

Attention, Union Men!

Do the Collars and Cuffs you
wear bear the Union Label? If not,
why not? Is it not your duty to sup-
port your brother unionists, no matter
in what industry they may be em-
ployed? Therefore insist on getting
the Union Label on all your purchases.
Union-made Collars and Cuffs may
be purchased in the following stores:
A. A. Smith & Bro., F. H. Rogers
& Co. and the Union Clothing Co.

Demand the Union Label Every Time.

TOWN RAIDED BY PULAJANES.

Five Policemen Killed, Five Wounded,
and Rest of Force Made Prisoners.

Manila, June 21.—A band of 200 Pul-
janas, under Cesarino Pastor, attacked
the town of Bureauen, on the island of
Leyte, Tuesday.

They killed five policemen, wounded
five, and captured the remainder of the
force, except the lieutenant who was in
command.
Pastor, the Pulajane leader, was killed
during the encounter.
The attack occurred at an early hour
in the morning. The police were caught
unawares, and their sentinels were rushed
from their post. The bandits then entered
the town and a hand-to-hand fight
took place. The police fought desperat-
ly, but were overcome by superior num-
bers.

The loss of the Pulajanes is believed
to have been heavy, but it cannot be
stated, as they carried off their dead
and wounded after the fight.

The municipal records were taken
from the tribunal piled in the street,
and burned. The destruction of these
papers was one of the most serious
phases of the raid, as they included
deeds, licenses, receipts, etc. The safe
containing the town funds was not dis-
turbed. The bandits carried away the
arms of the police and a quantity of
ammunition.

A detachment of constabulary under
Lieut. Johnson immediately started in
pursuit of the Pulajanes.

At the time of the rail Provincial
Governor Veyra was in another part of
the island securing evidence needed by
the Pardon Commission to obtain the
release of prisoners in the Bilbid Peni-
tentiary.

"TAFT COULD BEAT BRYAN."

Roosevelt Quoted as Believing the Sec-
retary to Be Strongest Candidate.

Washington, June 21.—President
Roosevelt is talking with White House
callers about the wave of Bryan senti-
ment that appears to be sweeping over
the Democracy in many states. He is
declaring to those with whom he con-
verses on this subject his belief that
Bryan will be nominated in 1908, and
that he will be a formidable candi-
date.

The only man in the field who can
beat Bryan, Mr. Roosevelt feels, is Taft;
and according to statements made to
friends, he would be greatly pleased to
see the secretary installed in the White
House for eight years. At the same
time, the President realizes that Taft
would be a very able supreme court ju-
stice. His hesitancy to select Taft for
the bench is due, it is said, to the
fact that he does not want to remove
the secretary of war from the presiden-
tial field.

BOMBS FOR TOURISTS.

Anarchist Captured in Geneva Had
Planned to Blow Up Hotel.

Geneva, Switzerland, June 20.—The
police have just averted a terrible tra-
gedy here.

Receiving information that a notorious
Russian revolutionist was planning a
bomb outrage, the police visited the
house in which he resided and found him
engaged in manufacturing bombs.

A large box of bombs ready for use
was discovered under a bed.
The building adjoining the house in
which the Russian revolutionist was
found is a large hotel full of American
and English visitors. It is the general
belief that the man was planning to
blow up this hostelry and to kill every
one in it.

AFTER OREGON ANARCHISTS.

The Government Inspector Seizes Pamph-
lets.

Portland, Ore., June 21.—Acting un-
der instructions from Washington, In-
spector Foster of the United States se-
cret service is investigating the alleged
anarchistic society which has been un-
earthed here. He has seized pamphlets,
printed in Polish, which were found at
the headquarters of the society.

TWO TURBINE LINERS ORDERED.

The Allan Line to Actively Develop Its
American Service.

Glasgow, Scotland, June 21.—The
Allan line has decided on the active
development of its American service,
and as a beginning contracts have al-
ready been drawn up for the construc-
tion of two new turbine liners larger
than the Virginian and Victorian lately
built for the Canadian traffic.

JUMP TO DEATH.

The Secretary of Chief Justice Fuller
Kills Himself.

Washington, D. C., June 21.—Clarence
M. York, secretary to Chief Justice Full-
er of the supreme court of the United
States, was killed yesterday by jumping
from a window of Garfield hospital,
where he was undergoing treatment.

Meat.

Meat once meant any kind of food.
In one old English edition of the Lord's
Prayer the well known petition is ren-
dered, "Give us this day our daily
meat."

Making a Felt Hat.

A felt hat is made by a pneumatic
process. A conical cup perforated with
holes is provided. The air beneath is
exhausted and by a curious device the
felt is forced evenly to all parts of the
outside of the receiver, and thus by the
strong pressure and rush of the air is
thrown upon the frame and distributed,
thus forming the basis for the hat.

UNITY IS REQUIRED

Said Rev. W. Stanley Emerson
Addressing Episcopal

ONENESS OF GOD'S PEOPLE

If We See Them in That Relation We
Shall See Things as God Sees
Them in the Oneness of
Christ.

The 11th annual convention of the
Episcopal diocese of Vermont was open-
ed with evening prayer and sermon by
Rev. W. Stanley Emerson of Tilton, N.
H., at the Church of the Good Shepherd
last evening. There was a good attend-
ance of delegates, both clergy and lay-
men.

Rev. C. E. Freeman, rector of the
Church of the Good Shepherd, in a few
well-chosen words welcomed the dele-
gates to the parish. Rev. W. S. Em-
erson delivered a strong and helpful
sermon choosing for his text St. Matthew
12:16. He said in part: "Let us stand
together for we represent one body.
Those who meet tomorrow are here not
only to get all they can from this con-
vention but also to give in order that
the light of the world may burn brighter
during the coming year. Let us grasp
firmly at the outset the fact of the
oneness of God's people then we shall
see things as God sees them in the
oneness of Christ."

The listening ear catches the message,
"Come," the master of all souls speaks,
addressing each one of us in turn, say-
ing, "Come, follow thou me," and a se-
cond word rings in our ears, "Go." Of
course this word speaks of duty. Go
everywhere you can. There is no house
that cannot be reached by the mails nor
any life that cannot be visited by pray-
er. Never go alone but keep close to
him who can help you. All day long
the Master walks by, the servant's
side speaking words of comfort. I beg
that you will respond to the work which
lies so close at hand. Keep wide awake
all the time.

Central observation of social con-
ditions is the first duty of the son of God
in these days. Consider the responsibility
resting upon us. The kingdom of
God should enter every home. It is
not a divine evil—but the manner
relation that should demand our atten-
tion. There are opportunities in our
schools and in our churches. The deeper
need is every day life and conduct.
There is no counting the opportunities
for service."

BETTER CIGARS FOR LESS MONEY

This Is the Reason Why C. H. Kendrick
& Co. Sell Wadsworth Bros' Chicos.

"In the last few months," said Mr.
Kendrick of C. H. Kendrick & Co., drug-
gists, "we have gained a wonderful sale
for Wadsworth Bros' Chicos." These
cigars give better value for the money
than any other we have ever seen.
Their price in giving their customers
the best of goods for the least money
made them sell the Chicos to those who
were smoking ten of fifteen-cent goods.

Chicos have a long Havana filler, burn
freely with a pleasant fragrance and are
a mild and enjoyable smoke that pleases
the most fastidious. "It is only about
the once in a hundred times," Mr. Kendrick
continued, "that we find a cigar equal
to its manufacturer's claims, but in
Chicos we found one even better, one
that fully confirmed what Wadsworth
Bros. asserted, a better cigar for less
money."

It sells for five cents straight, and
as we said before, we recommend it
to all who want a good cigar, no matter
at what price.

SUMMER DRINKS

We manufacture all kinds
of Soft Drinks. Only pure
filtered water and the best
fruit syrups used.

If you have not tried our
goods order a sample case.
Cooling and refreshing.

Special attention is given
to picnic orders. All goods
delivered.

FINE ICE CREAM

We have opened an Ice
Cream Parlor in connection
with our Fruit Store, where the
finest Ice Creams are served.
Try our Strawberry Ice Cream,
made from real fruit.

We also wholesale and retail
Ice Cream, and all orders of a
gallon and more delivered. We
deliver Fruit free at your homes.

NEW ENGLAND FRUIT COMPANY

Cor. No. Main and Merchant Sts.

Trust to Nature.

A great many Americans, both men
and women, are thin, weak and puny,
with poor circulation, because they have il-
literated their stomachs by hasty eating
or too much eating, by consuming al-
coholic beverages, or by too close con-
finement to home, office or factory, and in
consequence the stomach must be treated
in a natural way before they can rectify
their earlier mistakes. The muscles in
many such people, in fact in every body,
thin and thin-blooded person, do their
work with great difficulty. As a result
fatigue comes early, is extreme and lasts
long. The demand for nutritive aid is
ahead of the supply. To insure perfect
health every tissue, bone, nerve and
muscle should take from the blood cer-
tain materials and return to it certain
others. It is necessary to prepare the
stomach for the work of taking up from
the food what is necessary to make good,
rich, red blood. We must go to Nature
for the remedy. There were certain
roots known to the Indians of this
country before the advent of the whites
which were found to be so certain and
certain in their cleansing and invigorating
effect upon the stomach, liver and blood.
These are: Golden Seal root, Queen's
root, Sassafras root, Bloodroot, Mandrake
root. Then there is Black Cherry bark.
The medicinal principles residing in these
native roots when extracted with glycer-
ine as a solvent make the most reliable
and efficient stomach tonic and liver in-
vigorator, when combined in just the
right proportions, as in Dr. Pierce's
Golden Medical Discovery. Where there
is a baneful vitality system to be cured
by exhaustion, bad nutrition—and thin
blood, the body acquires vigor and the
nerves, blood and all the tissues feel the
benefit. This sovereign remedy
Although some physicians have been
aware of the high medicinal value of the
above mentioned plants, yet few have
used pure glycerine as the solvent and
usually the doctors' prescriptions called
for the ingredients in varying amounts,
with alcohol.

The Golden Medical Discovery is a
scientific preparation compounded of the
glyceric extracts of the above mentioned
vegetable ingredients and contains no
alcohol or harmful habit-forming drugs.

TRAIN AND TRACK.

The railroads of the United States
bought \$0,051,000 cross ties in 1905.
The federal supreme court recently
rendered a decision sustaining Geo-
gia's law prohibiting the running of
freight trains on Sunday.

As the result of frequent railway
accidents between Brussels and Na-
ture many passengers by that route
now wear large cards bearing their
names and addresses pinned to their
coats in order that there may be no
difficulty in establishing their identity.

Every snowstorm in winter, especial-
ly if the snow be damp, blocks the
switches in the railroad yards and de-
lays trains. A Boston inventor now
has perfected a plan to heat the
switches with pipes filled with oil. The
oil pipes will not chill as do pipes filled
with steam, and the high pressure is
not required.

HINDOO PHILOSOPHY.

All the world is mine—if only I can
take it in!
All the money on the face of the
earth is mine—if only I know how to
receive it!

All the people in the world are my
friends—if only I can treat them as
they should be treated!

The South Pole.

There seems to be no hope of finding
the south pole, the antarctic zone being
so cold and so compacted with ice as
to make any sort of travel there im-
possible long before the pole is
reached.

Oldest Herbarium.

The oldest and most curious herba-
rium in the world is in the Egyptian
museum at Cairo. It consists of
crowns, garlands, wreaths and bou-
quets of Egypt, most of the examples
being in excellent condition, and near-
ly all the flowers have been identified.
They cannot be less than 3,000 years
old.

The Oldest Church.

The oldest building in the world that
has been uninterruptedly used for
church purposes is St. Martin's cathed-
ral at Canterbury, England. The
building was originally erected for a
church and has been regularly used as
a place for religious gatherings for
more than 1,500 years.

To Criticise.

To criticise was originally to pass an
opinion upon, whether favorable or
otherwise, and the fact that most opin-
ions are unfavorable is indicated in the
present signification of the word.

Hat and Cap Riots.

The "Hat and Cap riots" were po-
litical difficulties in Sweden during the
reign of Adolph Frederick. They began
in 1720 and ended about 1771. The
Hats, or Chapans, were the French
party, who wished to modernize the
country by adopting the ideas, man-
ners, customs, political and military
usages of southern Europe.

Milton.

Milton was plain in his eating, as in
everything else. His breakfast was a
bit of bread and cheese or a chop and
a glass of milk.

Malay Language.

The Malay language, spoken in the
south seas, is softer than the Italian
and is said to be totally unlike any
other known language.

Rooted by Mosquitoes.

When Hannibal's army descended
from the Alps into the valley of Lom-
bardy the whole force was well nigh
routed by a plague of mosquitoes,
which drove men and animals almost
wild with pain.

Aconite.

Aconite is the active principle of the
plant known as Aconitum napellus,
which grows in the mountainous dis-
tricts of Europe, Siberia and central
Asia. It is well known from appearing
as an ornamental plant in flower gar-
dens. Aconite as a medicine was first
used by Storck in 1702, being employ-
ed then, as now, in infinitesimal doses.

Street Railroads.

The first street railroad was laid in
New York in 1832, between the city
hall and Fourteenth street.

PROCTOR ON MEAT BILL

Advises Senate to Agree to
Government

PAY OF THE INSPECTORS

Lodge Wants Meat Dated—Would Know
When Product Is Canned—Says
Cost of Inspection Should Be
Paid by the Packers.

Washington, June 21.—Senator Pro-
ctor, of Vermont, chairman of the Com-
mittee on Agriculture, yesterday called
up the Agricultural Appropriation bill,
which contains the meat inspection
amendment substituted by the House
for the Beveridge amendment.

Mr. Proctor made humorous reference
to the activity of the Chicago meat
packers in bombarding Congress with
protesting telegrams.

"They are all in almost exactly the
same wording," said the Senator, "in-
dicating that they were prepared by the
Chicago meat packers and sent at their
suggestion. Most of them are grammati-
cally incorrect—another proof of their
Chicago origin."

"They are not only packers of meat
but packers of men as well," said Mr.
Proctor, "judging from the success they
have had in rounding up people to send
telegrams."

Mr. Proctor opposed the House amend-
ment proposing to put the cost of the
tax upon the Government. He asserted
that the packers ought to pay it.

Mr. Beveridge (Rep., Ind.) opposed the
House amendment. He said that the
appropriation of \$3,000,000 to cover the
cost of inspection was an unwarranted
raid upon the Treasury. "Immigrants
pay for their inspection, manufacturers
of oomargarine pay the expenses of in-
spection of their products, and why
should not the packers pay?" said Mr.
Beveridge. The Indiana Senator closed
with a tribute to President Roosevelt.

Mr. Lodge (Rep., Mass.) created
amusement by saying that it might be
considered audacious for any Senator to
speak on the meat amendment because
it had been stated that the House bill
had been settled between the House
committee and the President and that
there was really nothing left to be said.
"But I'll venture to submit a few re-
marks in conformity with the obliga-
tions imposed upon this Senate by that
much discussed instrument the Consti-
tution of the United States."

SUNDRY CIVIL BILL.

Reported to the Senate—Night Session
to Consider It.

Washington, June 21.—A suggestion
of the near approach of the adjournment
of Congress was given when the Senate
on motion of Mr. Hale (Rep., Me.) de-
cided to meet at 8 o'clock last night and
consider the Sundry Civil Appropriation
bill in night session.

The Sundry Civil bill was reported to
the Senate yesterday from the Commit-
tee on Appropriations. It carries a total
of \$102,347,279, of which the com-
mittee added \$7,760,209.

The largest item of increase is \$1-
\$430,000 to aid the Jamestown Exposi-
tion, \$375,000 for buildings for a Gov-
ernment exhibit, \$200,000 for transpor-
tation of troops, building, etc., and
\$100,000 for an exhibit of the develop-
ment of the negro race.

Toward the purchase of land in Wash-
ington for a new building for the State
Department, the Department of Justice
and the Department of Commerce, the
committee provided an appropriation of
\$3,000,000.

For various aids to navigation author-
ized by the so-called omnibus lighthouse
bill recently passed, \$1,275,540.

Toward the completion of the new
office building for the Senate, \$950,000.

The committee restored the item of
\$200,000 for the Geological Survey and
that of \$25,000 for travelling expenses
of the President of the United States,
which were ruled out in the House on
points of order.

Toward the erection of a building for
the Bureau of American Republics, \$200,
000.

The committee struck out the House
proviso that no part of the appropriation
of \$25,458,575 made for continuing
work on the Panama Canal shall be ex-
pended for a sea level structure.

\$250,000 for Deer Island.

Washington, June 21.—The House
committee on appropriations yesterday
